

Dr Meryline Ndlovu

Dr Meryline Ndlovu graduated with an MB ChB from the University of Zimbabwe in 2011. Her paediatric specialist training took place at the University of KwaZulu-Natal (UKZN), and she was awarded her fellowship in 2017. She is currently completing her subspecialty training in paediatric pulmonology at UKZN. Her interests are lung infections and non-cystic-fibrosis bronchiectasis.

Dr Pheladi Mashiloane

Dr Pheladi Mashiloane is a paediatrics critical care fellow at Inkosi Albert Luthuli Central Hospital in Durban, South Africa. She obtained her undergraduate qualification at the University of KwaZulu-Natal (UKZN) in 2009. She did her internship training in Mpumalanga at Rob Ferreira Hospital in Nelspruit. In 2012, she spent a year at Stanger Hospital as a paediatric medical officer. She qualified as a paediatric specialist in 2017 at UKZN, and has completed her MMed degree in paediatrics.

Dr Mashiloane is an honorary lecturer at UKZN and has a special interest in influenza viruses in paediatric critical care units.
